```html
<!DOCTYPE html>
<html>
<body>

<h2>Create JSON string from a JavaScript object.</h2>
<p id="demo"></p>
<script>
var empobj =
{ name: "Srikanth", age: 30, city: "Hyderabad" };

var myJSON = JSON.stringify(empobj);
document.getElementById("demo").innerHTML = myJSON;
console.log(myJSON)
</script>

</body>
</html>
```

Out put : (JSON Object)
```
{
 "name": "Srikanth",
 "age": 30,
 "city": "Hyderabad"
}
```

```html
!DOCTYPE html>
<html>
<body>
<h2>Create JSON string from a JavaScript Array.</h2>
<p id="demo"></p>
<script>
var employees = [
{ name: "Srikanth", age: 30, city: "Hyderabad" },
{ name: "Srinivas", age: 31, city: "Chennai" },
{ name: "Suresh", age: 34, city: "Mumbai" }
]
var myJSON = JSON.stringify(employees);
document.getElementById("demo").innerHTML = myJSON;
console.log(myJSON)
</script>

</body>
</html>
```

JSON Output :
```
[{
 "name": "Srikanth",
 "age": 30,
 "city": "Hyderabad"
}, {
 "name": "Srinivas",
```

```
 "age": 31,
 "city": "Chennai"
}, {
 "name": "Suresh",
 "age": 34,
 "city": "Mumbai"
}]
```
